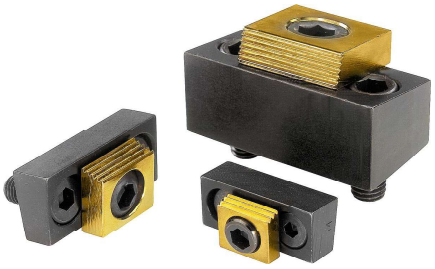
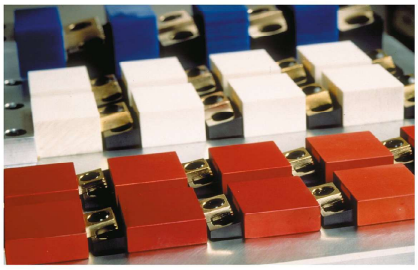
Toe clamps compact

Item description/product images



Example of series clamping using compact toe clamps



Description

Material:
Steel.

Version:
Body tempered and black oxidised.
Square washer case-hardened and brass-plated.

Note:
This cam action compact toe clamp requires very little space to produce multi-fixture clamping.
Workpieces can be clamped in series by using the back side of a clamp as a stop for the next row.
Mount preferably in slots with B +0.05 mm. The height of the clamp can be adjusted by altering the slot depth.
