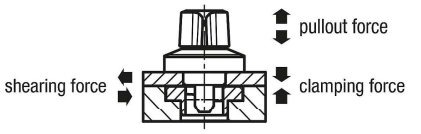
Quarter-turn clamp lock, steel rotary knob plastic or stainless steel

Item description/product images



Description

Product description:
Quarter-turn clamp locks are used for replacing and locking fixtures or hatches quickly and easily.
Toolless clamping shortens setup times.

Material:
Housing steel.
Pin stainless steel.
Knob stainless steel or thermoplastic PA (polyamide).

Version:
Housing nickel-plated.
Pin bright.
Knob reinforced PA fibreglass, black.
Knob stainless steel, bright.

Note:
Stainless steel fastening screws M2 or M3 are included.
Form A mounting option for plate thickness 6 mm.
Form B mounting option for plate thickness > 6 to 14 mm.

Type of operation:
Check that the rotary knob is in the "OFF" position and that the shank is retracted.
Push or place the quarter-turn clamp lock over the premounted clamping plate.
Press the rotary knob down and turn to the "ON" position.
When fully clamped, a click sound is heard.

Accessory:
Clamping plates K1062

Drawing reference:
1) plate
