

Clip-in bins, antistatic plastic, for type I and type B profile slots and mounting profiles

Item description/product images

Description

Material:

Bins carbon fibre reinforced antistatic PA.
Label holders PC.

Note:

These bins can be easily clipped into profile slots or mounting profiles.
The bins for mounting profiles can be hooked onto perforated panels.
For holding small parts.

The bins for mounting profiles can be combined with swivel adapters.

Application:

Sensitive electrical or electronic equipment, components and devices (ESD sensitive elements) may be damaged or destroyed by electrostatic discharges (ESD) in the immediate vicinity.

Electrostatic discharges can come from people or through handling ESD sensitive components (e.g. during production, assembly, transport, storage etc).

Electrically conductive products which conform to DIN EN 61340-5-1 are essential within electronic environments to prevent an electrostatic discharge.

These products can be used for ESD applications or in ESD protection areas (EPA) in accordance with DIN EN 61340-5-1.

The yellow ESD logo is printed on the side of the product to clearly identify it.

Supplied with:

Form C: 1x clip-in bin, 1x label holder, 1x label.

Form D: 1x clip-in bin, 1x label holder, 1x label.

Accessory:

Swivel adapter K1630.

Applications:

Device manufacturers required to conform to ATEX product directive 2014/34/EU.

Operators required to conform to ATEX worker protection directive 1999/92/EC.

Safety:

These ESD products can also be used for devices, components and protection systems in areas where there is risk of explosion.

These ESD products prevent electrostatic spark discharges, and eliminate the risk of ignition of gases and dust which could lead to explosions in enclosed spaces.

Manufacturers and operators must apply and comply with the ATEX directives for protecting persons working in areas where there is a risk of explosion.

These ESD products have been certified by TÜV-Süd for their electrical discharge capability.
