

## Clamping lever, die-cast zinc with extended collar with male thread, steel parts stainless steel

Item description/product images

### Description

#### Product description:

The clamping lever with extended collar replaces the screw on e.g. tube clamps. This enables tool-free tightening and loosening of the screw connection. The die-cast zinc clamping lever with its ergonomic handle design has a modern high-quality appearance and provides comfortable haptics.

#### Material:

Grip lever die-cast zinc DIN EN 12844.  
Steel parts stainless steel 1.4305.

#### Version:

Grip lever and steel parts bright.

#### Note:

A recommendation for the suitable clamping lever is given in the tube clamp dimension tables.

#### Advantages:

Tool-free clamping and releasing of tube clamps

#### On request:

Other threads, screw lengths, colours and special versions.  
Dimension "H1" available in other lengths at extra charge.

#### Accessory:

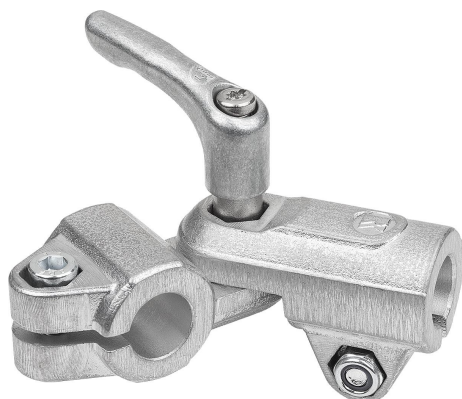

For tube clamps

#### Drawing reference:

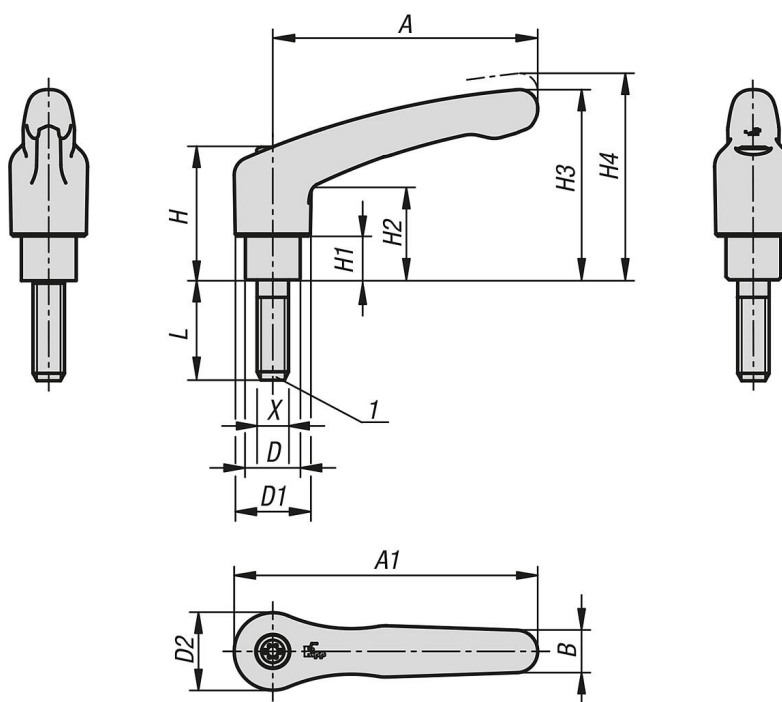

1) DIN EN ISO 4753 flat point
