

Position indicators for handwheels analogue-digital display

Item description/product images

Description

Material:

Housing, screen plastic.

Version:

Housing black, fibreglass reinforced.

Screen dustproof.

Note:

Position indicators are provided for installation in handwheels. They allow direct readout of set measurement values such as lengths, flow rates, speeds, etc., at a glance.

The measurement values are acquired according to the gravity principle. Conceived for use on horizontal spindles.

One revolution of the black pointer corresponds to one spindle rotation. In combination with the 5-place digital display, a very precise and easy read out of the position is thus obtained

On request:

Other pitches

Accessory:

– Handwheels K1930
